

Séminaires - David Koppenaal & Kenneth Marcus

Vendredi 21 septembre 2018, 12h00 - Amphi IPREM

Le 20 septembre 2018

David KOPPENAAAL (Pacific Northwest National Laboratory, Richland, WA)

Kenneth MARCUS (Department of Chemistry, Clemson University, SC)

Dave Koppenaal will give an overview of mass spectrometry approaches applied in the field of metallomics, while Ken Marcus will present the operation principles and applications of the LS-APGD microplasma.

They are going to work with the FT MS MARSS team on the coupling of the liquid sampling-atmospheric pressure glow discharge ion source to the Orbitrap LUMOS instrument
